

WHAT ABOUT RECYCLING ?

**Recycling pickup has not
changed!**

Keep up the good work! Each year, the city of Lake Station diverts tons of materials from the landfill that can be converted into everything from clothing to playground equipment! The more we can divert from the landfill, the less of your tax dollars are spent disposing of those materials.

If you have trouble fitting all your garbage into your new Toter, keep in mind that many common items are collected for recycling such as...

- Newspapers
- Magazines, catalogs, and “junk” mail
- Corrugated Cardboard
- Plastic milk jugs
- Plastic beverage bottles
- Plastic containers from yogurt, cottage cheese, etc.
- Plastic bottles from detergents, shampoo, etc.
- Aluminum cans
- Steel cans

All of these items should be placed in your blue recycling bin provided by the city and placed curbside on your normal recycling day by 7 a.m.

Thank you for your continued commitment to keeping Lake Station clean...a clean city is a green city!
